

Heads British Delegation To The Parliamentary Association Meet

London, Eng.—It is announced that in view of the appointment of Lord Hamilton, head chancelor, as acting prime minister in the absence of Premier Baldwin, Viscount Peel has been appointed chairman of the United Kingdom's delegation to the meetings of the Empire parliamentary Association in Canada in the next few weeks.

Viscount Peel is first consideration of work in the government and has been a numerous appointments since 1900. He was under secretary of state for war from 1919 to 1924. He is 61 years of age. The prime minister having expressed a strong desire that the United Kingdom delegation should include two members of the government, the association has invited Hon. P. C. Williams, parliamentary secretary to the board of trade to lead the delegation.

The delegation is expected to arrive at Quebec on August 24, and in company with other Empire delegations will make a tour of the Dominion before leaving Sydney, N.S., on October 5.

Receives Re-Appointment

Dr. McLean To Be Assistant Chief Commissioner Of Rail Road
Ottawa.—Dr. Simon J. McLean, Ottawa, has been re-appointed assistant chief commissioner of the board of railway commissioners. Dr. McLean's term of office expired August 6, and his re-appointment is for a further period of ten years. Dr. McLean was originally appointed to the board in 1908.

The term of Commissioner Frank Oliver will terminate on the 1st of September, when Mr. Oliver will have reached the age limit of 70 years. Dr. McLean drafted the Dominion Railway Act, and his reappointment for a third term creates a precedent. Since the formation of the Board of Railway Commissioners in 1909, Dr. McLean has been the only commissioner to be re-appointed after expiration of the ten-year term.

While no official statement has been made in the matter, it is rumored that legislation may possibly be introduced at the next session of Parliament, providing for the superannuation of members of the board.

Death Of Canadian Novelist

Mrs. Isabel Eccleston Mackay, 1200 At Her Home in Vancouver
Vancouver.—Mrs. Isabel Eccleston Mackay, Canadian novelist, poetess and playwright, who was known to the public as the author of "The House of the Seven Gables," died at her home here after years of illness. She was born in Woodstock, Ont. 52 years ago.

The late Mrs. Mackay was the daughter of Mr. and Mrs. James MacLeod MacPherson, of Woodstock, and came to Vancouver 19 years ago. She was the author of several novels, including "House of the Seven Gables," "Up the Hills and Over," "Mist of Morning," "The Window Gaze," and "The Song of the Sea." She was also the writer of a book of lyrics, "Pines of Dittwood," and a volume of poems for children entitled "The Shining Ship."

She also wrote a number of plays which have been produced in Canada and the United States. In addition to her husband she leaves three daughters.

Farmers Seek Relief

Nearly 10 Million Dollars Demand From Floods In Southern Manitoba
Winnipeg.—Our hundred and fifty farmers of the Sperling District in Southern Manitoba, claiming to have suffered loss to the tune of approximately \$10,000,000, have petitioned the government for drainage relief.

According to a spokesman for the distressed farmers, approximately 100 sections of land were inundated during June and July, destroying grain crops. It was in the heat, and ruined growing lands.

The government is being urged to reconstruct its drainage system in the affected area. Premier John Bracken and Hon. W. H. Clark minister of public works, following a trip of inspection to the flooded lands, promised early consideration at the request.

Gold Strike In Ontario

Rich Find Is Reported In Vicinity Of

Mine Ontario. A special despatch to the Mail and Empire from Lachlan, Ont., says:

"Reports from Mine Ontario, west of Port William, on the Canadian National Railway, bring word of what is described as a sensational gold strike made on the Johnson claims at that point. The claims are located south of the Pole mine of the Johnson claims, and east of Little Vermilion Lake.

"A mining engineer returning from the scene of the strike says that he took from the surface is glittering with visible gold which would run thousands of dollars to the ton, and is said to equal or even eclipse the remarkable find made on the Isabella property of Northern Lake Mines, Ltd., reported several weeks ago.

Message From Amundsen

Believe Note Found In Bottle To Be In Handwriting Of Lost Explorer
NORWEGIAN.—Despatch to the Daily Mail from The Hague state that the Norwegian Minister at Amsterdam announced an apparently genuine message from Roald Amundsen, noted explorer who was lost while participating in the expedition seeking the crew of the wrecked Polar dirigible Italia, had been found in a bottle near Rotterdam.

The message, which was compared with Amundsen's handwriting, and was said to be authentic, gave the position of the explorer and his party on July 1.

Rotterdam is in the Netherlands Islands in the North Sea. Amundsen and four companions have been missing since they started in a French seaplane to search for the Italia party.

Three Killed and One Badly Injured At Grade Crossing In Alberta
Calgary.—Three were killed, one fatally hurt, and subsequently succumbed in hospital and one other dangerously injured in a crossing accident at the town of Okotoks.

The dead are A. J. Clarke, deputy sheriff of the town of Burnham, Montana, his wife Jennie, and his two boys, eight years old, and Lloyd aged four.

A daughter, aged, aged about 15, lies in hospital in High River in a precarious condition.

The party were touring on holidays and had been staying at Cutts, Alta. They left there with the intention of driving to Calgary.

When within 27 miles of their objective they met tragedy, due, it is believed, to a misreading of the signal, by the oblique rays of the setting sun as he made his way in a north-westerly direction over the crossing.

Inspect Australian Ship

12,000 People Visit New Cruiser During Stay At Montreal

Montreal.—H.M.A.S. Australia, flagship of the Royal Australian Navy, sailed for Quebec, following a visit of several days to Montreal. It is estimated that 12,000 persons viewed the new cruiser while she was here.

The Australia will remain at Quebec four days, following which she will proceed to Halifax, which will be visited on August 22. Other places to be visited include Boston, August 26; New York, August 30; Chesapeake Bay, September 4; Colon, September 17; Tahiti, September 20; Wellington, N.Z., October 9; Brisbane, Australia, N.O., October 17; Sydney, N.S.W., October 23.

Recognition Of Ecuador

United States Now Convicted Of Country's Good Intentions

Washington, D.C.—The United States has accorded complete recognition to the Government now functioning in Ecuador, the State Department announced.

Secretary of State Kellogg has informed the Ecuadorian Government by note that, beginning immediately, the United States, convinced of Ecuador's good intentions to return to a constitutional form of government which it abandoned in 1925, constitutes recognition to the present regime.

Miss Ross Is Fatal

Calgary.—L. L. Johnson, for years chairman of the Department of Soldiers' Civil Re-establishment at Calgary, was instantly killed when a charge of dynamite exploded prematurely in Mr. Johnson's mine at Dodd, Alta., according to information received here.

Miners For Harvest Fields

The Pros, Minn.—Men are flocking from the railway country to the fields along the Flin Flin railway seeking higher wages in the harvest fields in the interior. Five hundred men have departed from The Pas on the last two trains going south.

Heads Native Sons Of Canada

Minister of the Interior

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at its annual meeting in Regina.

Dr. Cotton is the first eastern member of the organization to be appointed to the presidency. Formerly he was appointed to the vice-presidency of the council.

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at its annual meeting in Regina.

Dr. Cotton is the first eastern member of the organization to be appointed to the presidency. Formerly he was appointed to the vice-presidency of the council.

Influenza In The North

Serious Epidemic Has Broken Out In Mackenzie River District

Winnipeg.—A serious epidemic of influenza has broken out along the banks of the Mackenzie River with considerable loss of life. According to a letter received from Rev. W. B. Singleton, principal of the Holy River Eskimo school of the Indian and Eskimo mission of the Missionary Society of the United States.

At Fort Resolution, where Slave River flows into Slave Lake, 20 deaths were reported. At Hay River, towards the west end of the lake, there were ten deaths. The tally of deaths at other points was thought to be even greater, the letter stated.

The Manitoba Division, Dominion Department of Indian Affairs, had received no information of any epidemic in this province.

Fuller Party Reported Safe

Have Been Re-provisioned And Are Now Headed For Shores Of Hudson Bay

Regina, Sask.—Three weeks ago the John D. Fuller expedition of student geologists from Iowa into the north was safely launched on a new and shorter route to Hudson Bay. The four men, who have been almost given up as dead for the last six weeks, have been re-provisioned and given new equipment for the trail. They are now headed along the route through Young's Lake and smaller bodies of water and down the Thielbach River to Hudson Bay. They are expected to emerge near Driftwood Point, halfway between Chesterfield Inlet, their first objective, and Fort Churchill.

Church Is Desecrated
St. Jerome, Que.—Vandals entered the Roman Catholic Church here and laid waste many sacred articles. Sacred vessels were thrown around the church and the main body of the church, while the priests' vestments were torn and slashed and scattered around the altar.

A church containing the Host was broken to pieces.

Expedition Well Equipped

Commander Byrd's Antarctic Venture May Cost One Million Dollars

New York.—The Antarctic expedition of Commander Richard E. Byrd, which starts from this port this week, will be the most extensive expedition in the history of exploration and may cost one million dollars.

Byrd's expedition is expected to cost one million dollars. It was said the cost would be not less than \$850,000, and before the expedition returns to this country may reach \$1,000,000. Contributions received to date include \$435,000 worth of equipment and \$227,615 in cash.

BRITISH STUDENT HARVESTERS

Buffalo.—The struggle for supremacy between the rum running fleet on Lake Erie and the United States government boats set afire and sank one craft and captured two others carrying contraband liquor and ale.

At Niagara below the Falls a speedy boat carrying many cases of both whiskey and ale fell into the hands of the federal patrol.

Earlier in the day the C.G. 121 sighted a suspicious looking craft off Brockton, on Lake Erie. A chase followed during which the government boat fired 30 rounds.

After the gun fire had set the rum boat afire, the United States boat took the crew of two men and burned by while the damaged craft turned to the water's edge.

The other boat was caught on Lake Erie, off Barcelona. Three hundred rounds were fired at it before the crew decided to leave and to surrender. Two men and a small quantity of liquor were found.

Hope For Peaceful Relations

Kellogg Peace Pact's Revolutionary Policy Among Nations

Wassau, Wis.—Within a fortnight of the date on which the international treaty for outlawing war is to be signed, President Coolidge declared before the Wisconsin State-American Legion here, that the Kellogg pact holds a greater hope for peaceful relations than has ever before been given to the world.

The President maintained that by taking a leading position in securing this agreement, the United States proved its pacific inclinations toward all nations.

"We have demonstrated," Mr. Coolidge declared, "that when we have said, we maintained our armaments, not for aggression, but purely for defence, we were making a candid statement which we were willing to verify by our actions."

The President said that "it would be too much to suppose that war had been entirely banished, yet a new and important barrier, reasonableness, has been erected to bar it."

This agreement proposes a revolutionary policy among nations, he said. "It holds a greater hope for peaceful relations than has ever before been given to the world. If those who are involved in it, having started it, will finish it, its provisions will prove one of the greatest blessings ever bestowed upon humanity. It is a fitting confirmation to the first decade of peace."

To Take Care Of British Harvesters

Effort Will Be Made To Provide Permanent Work Throughout Winter

Saskatoon, Sask.—If the British miners who are coming to the west to work in the harvest fields do not obtain permanent work throughout the winter it will not be the fault of the railway companies or want of effort on their part.

It is stated that the railway companies will be left untaken to try to keep them here and in the opinion of T. Devlin, local manager of the Canadian National railway, the Dominion government, future immigration from the British Isles depends largely on the success or failure of this venture.

Mr. Devlin said that he could see no reason why the project should not prove an outstanding success. "The men who are coming are by no means strangers to hard work and they know just as much about farm work as the average harvester from Eastern Canada," he says.

Sees Wave Of Prosperity

Crop This Year To Produce Two Billion Dollar Yield

Victoria, B.C.—"Canada's crop will this year give her farmers a two billion dollar yield and the wave of prosperity and progress which is sweeping from coast to coast across the Dominion will give a tremendous impetus to the country's trade and business generally," declared Dr. J. H. Gissdale, federal deputy minister of agriculture, who was in Victoria today.

Expedition Well Equipped

Commander Byrd's Antarctic Venture May Cost One Million Dollars

New York.—The Antarctic expedition of Commander Richard E. Byrd, which starts from this port this week, will be the most extensive expedition in the history of exploration and may cost one million dollars.

Byrd's expedition is expected to cost one million dollars. It was said the cost would be not less than \$850,000, and before the expedition returns to this country may reach \$1,000,000.

SUNDAY SCHOOL LESSON

AUGUST 28

PAUL AT PHILIPPI

Golden Text: "Rejoice in the Lord always; again I will say, Rejoice."—Philippians 4:4.

Lesson: Acts 16:1-40. Devotional Reading: Isaiah 55:1-3.

SPIRITED FIGHT ON LAKE ERIE WITH RUM FLEET

Buffalo.—The struggle for supremacy between the rum running fleet on Lake Erie and the United States government boats set afire and sank one craft and captured two others carrying contraband liquor and ale.

At Niagara below the Falls a speedy boat carrying many cases of both whiskey and ale fell into the hands of the federal patrol.

Earlier in the day the C.G. 121 sighted a suspicious looking craft off Brockton, on Lake Erie. A chase followed during which the government boat fired 30 rounds.

After the gun fire had set the rum boat afire, the United States boat took the crew of two men and burned by while the damaged craft turned to the water's edge.

The other boat was caught on Lake Erie, off Barcelona. Three hundred rounds were fired at it before the crew decided to leave and to surrender. Two men and a small quantity of liquor were found.

Heavy Toll Of Life Taken As Natives Of North Succumb To Flu Epidemic

All Bitterness Forgotten

Remarkable Tolerance Is Shown In 1918 Flu Epidemic

Victoria, B.C.—Right Hon. Hugh Kennedy, chief justice of Ireland and honorary member of American and Canadian Bar Associations, was the guest-speaker at the Canadian Club luncheon here.

"We had a fight with England but that fight terminated in a treaty of peace, and a reconciliation was reached which I believe has wiped out the rancor which existed in the past," the chief justice said.

One of the first steps in the reorganization of the country was placing agriculture on a firm basis, so that agriculture for years to come would continue as the foundation of prosperity in Ireland, he said.

"The fact that the Free State had shown a remarkable degree of tolerance with the test of religion never entering into politics. As an example, he referred to the fact that the minister of finance was a Presbyterian from an Orange county.

Will Be Buried In North

John Hornby and Companions To Be Interred At Spot Where They Perished

Ottawa.—The bodies of John Hornby and his companions, Adair and Christian, will probably be buried at the spot where they perished on the shores of the Thelon River. It is a practical impossibility to bring the bodies back to civilization, particularly at this time of the year, Mount of Police officials stated today. During the winter months dog sleds might be used but it is regarded as doubtful if even this method would be feasible.

Identification of the explorer and the other members of the party is positive, it is stated. Papers on the bodies assisted in the identification.

In order to effect the burial Mount of Police officials will have to travel west 300 miles from Chesterfield Inlet.

For Open Door Policy

Jan Smuts Wants Larger White Population For South Africa

Cape Town.—A strong plea for a vigorous immigration policy for the Union of South Africa was made by former Premier General Jan Smuts, 28, at Reims, Orange River Colony.

"South Africa must throw open its doors to immigration, for a nation being made in a barren land, the solution of the 'poor white' problem," he said. "We should open our doors to the United States and Australia."

Aerial School Lesson

Two Accidents Was the Result Of The Manoeuvres Over London

London, Eng.—The aerial sham warfare over London, in which hundreds of planes have been engaged in the last few days, has resulted in two accidents of the manoeuvres. No one was hurt.

Flying Officer L. C. Bennett was forced to jump in a parachute when his plane burst into flames over Richmond. He landed safely on a house top, A. "Billie," the bomber, engaged in an attack on London, made a forced landing in a field and was damaged, but the pilot and observer escaped without a scratch.

Successful Expedition

American Expedition To Central Asia Makes Valuable Discoveries

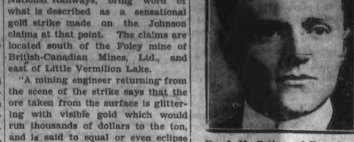

Peking.—Roy Chapman, leader of the fourth central Asian expedition, returned to Peking after covering 9,000 miles on what he described as one of the most successful trips ever made.

The chief prize of the expedition is the fossilized skull, teeth and shoulder bones of a pre-historic man, with a saddle-shaped head. The specimen is of the most colossal animal that ever existed," Mr. Andrews said. It is unknown to scientists.

Only part of its head bones alone weigh more than 100 pounds."

Manitoba Garment Workers Quit

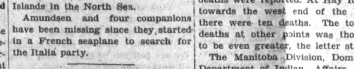

Montreal.—Twelve hundred employees and 20 work shops in Montreal are expected by the present agreement to be struck by the workers of the Amalgamated Clothing Workers of America. It is not spoken of as a strike by union officials because of all the sleep in the city and the fact that the city is not in a state of emergency.

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at its annual meeting in Regina.

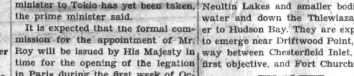

Hon. Philip Roy has been recommended by the Dominion Government to His Majesty the King for appointment as Canadian minister plenipotentiary to Paris.

John D. Fuller, leader of the expedition to Hudson Bay, is shown here with his companions.

Commander Richard E. Byrd, leader of the Antarctic expedition, is shown here with his companions.

ENRICHED in Color
Enhanced in Style
and Offering Even Greater Performance

BEAUTIFUL as the Pontiac Six has been in the past—great as its performance has proved in the hands of owners—today's Pontiac Six is even more beautiful, even more thrilling to drive! For, in keeping with General Motors' policy of progressive engineering practice, this lowest-priced General Motors' Six has been enriched in color, enhanced in style and equipped for even finer performance.
To the beauty of style of long, low bodies by Fisher, have been added the swaggy touch of smaller, smarter wheels and larger tires, while new and harmonious combinations of Duco colors have been created. Mechanical advancements result in smoother performance and greater power than Pontiac ever offered before. And along with its more stirring response to the throttle, it continues to provide the stamina and long life for which it is famous.
Until you have seen and driven it you cannot realize what style, what color and what performance today's Pontiac Six affords—for here are beauty and snap you never dreamed you could buy at so low a price.

Women spend more in lingerie, statelike age, and sometimes that isn't all that show.
The fool marries the girl he loves; the wise man loves thought he marries.
Frederick Gleaser.

In the old days the horse had sense enough to avoid snatches, but nowadays these horseless carriages have no more sense than the drivers.
Canada, we say, for these American papers which dispatched special correspondents to greet the Bremen fiers, consists of several stattered villages populated by dog drivers, and entirely surrounded by cracked ice.
—Border Cities Star.
And perhaps the ice was not the only thing cracked.

THE BIG GRAIN FIGHT
The slump in the price of wheat has caused a resumption of active hostilities between the wheat pool and the private grain interests.
Stories have been circulated that the pool has a large carry-over from last year, but these stories have been denied by pool officials.
In Chicago, a report was spread that the Canadian wheat crop would amount to the enormous total of 100,000,000 bushels. The figure is far from being near the truth, but doubtless, the story has some influence in depressing the market.
From some quarters come complaints that since the wheat pool came into operation the price of grain has been going down steadily, leaving the future for the co-operative, private organization was responsible for the lowering of the price. From the same quarter for years we have been told that the pool could have an effect on the price of wheat, but that this was controlled by the law of supply and demand. Such inconsistency.

The present year is a crucial one in the history of the wheat pool, and the pool price for the 1929 crop will be an important factor in deciding the future activities of the pool.
COUNTRY FOR HEROES
The London Evening News, in publishing an article about Canada, remarks: "All of Canada save the fortunately well populated sections of Lower Ontario and a strip of British Columbia, is a country fit more for heroes to live in." To which comment we bow with modest grace.
We westerners make no pompous display of our heroic attributes, but we are pleased to learn they are recognized by at least one London newspaper writer. We suspect, however, he got his impressions from reading the story books.

NO SHORT CUT TO SUCCESS
Lillian Gish, famous screen actress recently made the remark that it takes ten years of hard work to build up a large following and to make people demand a name for face in the films. She speaks from personal experience and from a knowledge of other screen folk.
Here is a situation not limited alone to movie stars. Doctors and lawyers frequently justify their fees by the years they have spent in study and in building up a paying practice. It is not only in fiction and the movies that young artists stare in atter. Henry Ford struggled for years before Ford's fortune favored him. And his experience has been that of the founders of most of the country's great industries.
Successful merchandise often attribute their business achievements to early years of struggle, just one jump ahead of the sheriff. Trade business men on solid foundations laid by years of hard work and extensive advertising. Stores and other business enterprises do not win public confidence and widespread patronage by lottery.
The larger rewards of screen stars, professional men and successful business men are vindicated by the years of self-sacrificing toil expended in winning them. Part of their income is hard pay.
Many individuals and business enterprises fail today because they are unwilling to pass through that formative period of hard knocks and hard work. The world's worst battle is a day, and great careers and monumental commercial enterprises are not produced by the wave of a wand.

HUSH-A-BY BABY
Hush-a-by baby; as the birds fly,
We are off to the island of Lullaby;
I am the Captain, you are the crew,
And the cradle, I guess, is our birch bark canoe;
We'll drift away from the work-day shore
For a thousand long leagues or more
Till we reach the strand where happy dreams wait
Whether we're early or whether we're late.

Hush-a-by baby; as the birds fly—
Let up make the snug harbor of Lullaby
Some little folks are far on the way!
Some have put in at Wide-awake Bay
Others, I fear, are long overdue;
Don't let this happen, my darling, to you!
Let us steer for the coast where happy dreams wait,
Whether we're early or whether we're late.

Joshua's Distinction
A small boy, when asked by his Sunday school teacher what he knew about Joshua, answered:
"Joshua was a man who told his son to stand still and he did."
The only comment on this, says the Christian Advocate, is that Joshua was much more successful than the modern father.

Holes
Pat was hired in a lumber office. The proprietor was a young man and he decided to have some fun with the new hand, so Pat was left in charge of the office, with instructions to take all orders which might come in. Going to a nearby store, the proprietor called up the office:
"Hello! Is this the East Side Lumber Company?"
"Yes, sir."
"Send me up 1,000 knot holes."
"What's that?"
"One thousand knot holes."
"Well, now, an' ain't that a shame! We are just out of them. Sold them all to the brewer."
"To the brewer? What do they want with them?"
"They use them for bung holes in barrels."

On the Job

~ over all roads
~ in all weathers
~ at all times

WITH the superb ease of a thoroughbred that takes all in its stride, the "Bigger and Better" Chevrolet never falters in the most trying circumstances—proves its mettle on the steepest grades and in the face of the greatest obstacles.

The ruggedness of Chevrolet construction alone makes these things possible. There is no part of the engine—or of the chassis—of the body that was not designed primarily for rugged endurance—put to the test again and again on the General Motors Proving Ground.

As a result the "Bigger and Better" Chevrolet steadily climbs without a halt, the steep slopes of the Rockies, and plunges its way through the deep mud and gumbo of half-made, rutted trails. In whatever conditions it may be placed, the splendid ruggedness of Chevrolet remains loyal in the service of its owner.

Its long life has become proverbial—the very name Chevrolet is a synonym for strength that endures.

The "Bigger and Better" Chevrolet—beautiful in form—functional in appointments—superiorly rugged in construction—powered by the famous Valve-in-head engine—offers solid, enduring, trustworthy performance even under adverse conditions.

No matter what the roads—no matter what the weather—on all these the "Bigger and Better" Chevrolet says on the J.C.M. The G.M.C.E. ... General Motors' own department that effects the most convenient and economical way of buying your Chevrolet on time.

Local News

Sgt. Cawsey made a trip to Calgary on Tuesday.

Miss Sheena Bruce, of Calgary is visiting with Miss Mary Cathro.

H. D. Pigwary, of Calgary, P. O. Inspector, was in Bassano on an inspection trip.

Mrs. W. E. Sambrooke and son Lowell, went to Calgary on Thursday.

Miss Margaret Woodward, of Duchesne, is visiting with Miss Norma Milroy.

A Johnston of Carmanagay, formerly of the Bank of Commerce staff here, is visiting in Bassano.

The Brooks agricultural fair will be held Monday and Tuesday, Sept. 3rd and 4th.

Mr. and Mrs. Wm. Buchanan, of Redlaw, were visiting in Bassano over the week-end.

Jimmie Donaldson, of the Royal Bank staff at Brooks, is home for a week's holidays.

H. W. Ford is in charge of the town office during Secretary J. R. Donaldson's two week's holidays.

Mr. and Mrs. W. J. Redmond and son returned Sunday from Banff where they spent their vacation.

R. C. Service will be held in Bassano next Sunday, August 26th at 9:00 a.m.

After waiting two months Harry Jones has been able to get delivery of his new Nash "400".

Inspector Mayo, of the C. P. R. Medicine Hat division was in Bassano Monday.

Dr. A. G. Scott and Dr. B. E. Barlow were visitors to Calgary on Tuesday.

Harvey Smith sold a G. M. C. truck to St. Hyacinthe, who will use it for hauling grain.

Weed supervisor Ernie of Calgary, and weed inspectors Bentley, of Hussar, and Boothby, of Duchesne, were in Bassano on Wednesday.

They report that in most instances farmers are co-operating in the destruction of noxious weeds, particularly with the very noxious weed the perennial sow thistle.

Many W. L. members from Hussar, Duchesne, Brooks, and Chandler, attended the annual conference of the Bow Valley Constituency Women's Institute held in Bassano Wednesday afternoon. There was an attendance of seventy at the meeting.

The thermometer dropped below freezing point Wednesday night. No change in crops has yet been reported.

Mrs. R. A. Travis, who has been a patient in the local hospital for the past few weeks, is now much improved.

Shewart Sanford can now successfully say "Chicken here's your coupe" as he is driving a new Nash "400".

Next month the Board of Trade will return to the twice-a-month meeting. During July and August there was only one meeting monthly.

J. Harris, of Mapleton, and C. W. Hayes, of Hussar, were in the Bassano district for a couple of days this week getting new contracts for the wheat pool.

The town irrigation system has been without water for some time due to the giving way of the weir in the main canal where the town ditch branches off.

John Schelski, of Bassano, was fined \$5.00 and costs of \$4.35 for allowing his son of 14 years drive his motor vehicle, Sgt. Cawsey prosecuted.

We have been wondering why Percy Powell's smile is so broad these days until we saw him with one of Roy Smith's new Nash "400" series.

S. Fraser, mechanic in Sambrooke's garage, left Monday for Calgary. He will this fall resume his studies in the faculty of dentistry at the University of Alberta.

Rain Sunday night and Monday morning, and again Tuesday night temporarily halted harvesting operations, although not many farmers were cutting.

Mr. Thomas, Mr. Ratray, Miss Ratray, and Miss Napier, of Heglein, stopped off for a day in Bassano last Monday to visit with Mr. and Mrs. J. R. Donaldson. The party were on a motor trip to Banff.

He Knew
"Hadden you better go and tell your mother to get the motorist to the farmer's boy who stood looking at the load of hay upset in the lane by a collision."

"Life knows," replied the boy.
"Knows? How can he know?"
"Cos he's under the hay."

Bassano, Alberta

WORLD HAPPENINGS
BRIEFLY TOLD

Increasing alarm is being expressed over the unsatisfactory situation in Great Britain, with 1,000,000 men out of work.

Two new brands of whisky, approved by the Ontario Liquor Control Board, have been put on the market by the companies. The varieties are styled "Canadian No. 1" and "Canadian No. 2," and bear the seal of the board's approval on the bottles.

Dr. Paul, chief chemical analyst for the Bureau Generale, the French Red Cross, has reported to have detected toxic matter in the viscera of Captain Alfred Loewenstein, Belgian financier, whose death recently was surrounded with mystery.

Four men held up the First National Bank of Boston, N.D., and escaped with between \$2,000 and \$4,000. They were their getaway in a dark blue Buick sedan, which was out of Boston, which is about 60 miles north of Fargo.

Baron Von Huenfeldt, owner of the trans-Atlantic monoplane, the Bremen, which Captain Hermann Kiehl and Col. James Fitzmaurice piloted across the Atlantic, will make a present of the disabled plane to the projected museum of New York.

Investigation of the immediate power requirements of the city of Saskatoon is to be made by a committee of the Saskatchewan Government, with a view to working out a plan under which a start might be made in the production and sale of power under central control.

Owing to inadequate steamship accommodation, it will be impossible to transport to Canada full quota of 10,000 unemployed which were to work in the Western harvest fields, according to J. Bruce Walker, director of European immigration for Canada. He states that possibly not more than 8,500 would be taken to Canada from all sources.

Lost Prospector Found

After Walking Alone For 48 Days, Is Rescued By Plane

Lost forty-eight days, during which time he wandered aimlessly through the dense wooded country north of the Pas, Andrew Taylor, local prospector, was found, by searchers near Burnhead Lake, and brought by airplane to the Pas.

It was a harrowing story that Taylor related to his rescuers. For days he walked through the woods in the belief that he was on his way to settlement, only to find that he was hopelessly lost.

Faced with starvation, he had killed birds and eaten them, and at times when driven to desperation had relieved his hunger by consuming dead fish found on the surface of the river.

Lastly, he found a few half formed wild raspberries and then stumbled across a potato patch planted by an Indian. It was the uprooted tubers seen by a wandering native that gave the first authentic clue to his whereabouts.

He must have travelled 300 miles in a single circle to reach Burnhead Lake.

The condition of the man, when found by Fred Coleman, veteran prospector of Cobalt, Ont., and Capt. Kenyon, who piloted the Fokker search plane, betrayed the extreme hardship and suffering which he had endured during his wanderings. His clothing was in tatters from pressing through dense undergrowth, and his face was bound around his eyes for protection against the rough treating.

Seven weeks' growth of beard covered his face, while his haggard countenance showed that he could not have survived much longer if he had not reached him. Barely able to walk, he nevertheless showed his spirit in having been returned to his wife and friends who had long since given him up for dead.

"Your name is Paul. Are you cold?" "No, thank you," replied Mr. Paul.

Farmers' Marketing Tour
Canadian National Railway Tour
To Great Britain and
Denmark, 1928

(Continued.)

We were now in the home of the Cydenhams, and a tall Mr. Weir, from Newcastle, in the morning had brought a pressing invitation from the A. & N. Company of the Cydenhams, near Kelso, to visit them. This took a section of our party to see the great home "Bismarck" and some of his progeny as well as the Border Reivers' Black of Monks' Farmstead and here we had our first taste of Scotch hospitality. The brothers with their sisters and mother entertained us royally to a delightful tea and the "Vera Grange" was not missing. Ours was a great privilege because the afternoon was lovely and from the high ground at Sandy Knowe the eye can roam for twenty to thirty miles in every direction over the beautiful Scottish countryside. Our visit over, we continued our journey to Edinburgh enlivening the night with old familiar songs.

The main body had gone on passing through Dundee at dusk awakening many memories for one of the members of our party, James Walker, representing the Canadian Bank of Commerce, Toronto, who was present at the pleasant Scottish town. Evening found us in Edinburgh, Scotland, and we were in the North British Hotel, overlooking the famous Princes Street.

From Melrose we had a real challenge to meet the best curling rink in Scotland, the aspiring rink being the "Melrose Curling Club," which, unfortunately, a game could be secured owing to the rain on Saturday.

Our first engagement was to visit the home of 3,500 guineas by Captain John MacGillivray, Supreme Champion, "Chlorine Double Event" which was bought by Mr. James Aglin, the well-known exporter to the Argentine.

Dissect Brain Of Lenin

Bolsheviks Analyzing The Gray Matter Of Brain Of Apostle Of Communism

A Toronto Mail and Empire special from Paris says:

"The brain of the late Nicol Lenin, the Bolshevik dictator, has been cut up into 31,000 slices and particles. For two and a half years the entire scientific staff of the Lenin Institute, at Moscow, under the direction of the famous German savant, Professor Otto Vogt, has been busy with the task of dissecting, analyzing and preserving the gray matter of the apostle of Communism."

"In the case of the body of the dead and detective stories, the method of embalming was evolved that is now recognized to insure the perfect preservation of the mummy for several centuries."

Louis Tracy Is Dead

Well Known Author Of Popular Stories Passes Away At His Home In Kent

Louis Tracy, author of many novels and detective stories, died last night at his home near Ashford, Kent. He was born in 1863, and educated privately in Yorkshire and France. In early life he varied his journalistic career with travels.

He was attached to the headquarters staff of the British war mission in the United States in 1917. In 1921 he collected a large sum for the restoration of Westminster Abbey.

A bank failure may not upset the depositor, but it will cause him to lose his balance.

After it is too late a man thinks of a lot of bright things he might have said.

RESCUES TRANS-ATLANTIC FLYERS

Buffeted about bywinds in their fragile seaplane in mid-Atlantic, Capt. Frank T. Courtney, E. B. Homer, of Montreal, son of a former Dominion-wide footballer; his fiancée, Freda Price, and E. W. Giller, of Glasgow, wireless operator were rescued by the Atlantic Transport Ltd. seaplane a few days ago. Capt. Courtney and the other three were attempting a flight from the Azores to Newfoundland, when their machine fell in flames into the sea. By the aid of a small boat the three men escaped, but their plane was lost. The seaplane was a two-engine biplane, and the three men were rescued by the ship. The seaplane was a two-engine biplane, and the three men were rescued by the ship. The seaplane was a two-engine biplane, and the three men were rescued by the ship.

Following back and a great welcome by Lord Provost Dunlop, we were soon watching with excited eyes the Indian and French parade in the city, noting with admiration the high average of quality prior to, taking

RULING INDIAN PRINCES

Conferees are now in progress between representatives of the ruling Indian princes and of the secretary of state for India. At present only about half of India is under direct British rule, while the rest is made up of a hundred so-called independent

states. It is said that the rulers of the native free states seek to create a federation which would recognize some central authority as a first step to a larger union. It is hoped, would embrace British India as one of its units. The speaker for the reigning princes are: (1) the

Maharajah of Kashmir, who won considerable notoriety as Mr. A. in the Robinson Blackmail case; (2) the Maharajah of Patiala; (3) H. H. Sir Jagat Singh, and (4) the Maharajah of Haidpura. They are conferring with a committee of Englishmen, headed by Sir Harcourt Butler.

Long prominent as one of Western Canada's most brilliant lawyers and a pioneer of forty-five years' standing, C. C. McCaul, K.C., aged 70, died at his home in Edmonton, recently, after a lingering illness.

Legal and business circles were shocked upon learning of the death of the eminent counsel, one who had taken a leading part in some of the most important cases heard in the Dominion. Known and held in high regard in the prairie provinces, in British Columbia and in the far away Yukon, where he was one of the hardy pioneers who went through the gold rush, C. C. McCaul had a wide circle of friends and acquaintances.

From 1885 to 1888, Mr. McCaul practiced law at Fort MacLeod and then he removed to Lethbridge, where he established a law partnership with F. W. H. Hargrave, who had opened a law office in Macleod in 1884, and later became chief justice of the Northwest Territories.

The entire cost of the expedition is being borne by Mr. Gray, who is taking with him a surveyor and two assistants, a large company of guides and pack horses and a complete outfit. The expedition is for the purpose of finding wild life and scenery. The purpose, explained by Mr. Gray, in a letter to C. J. Hargrave, vice-president of the Canadian National Railway, is to secure an accurate map of this territory, which he believes to be a splendid game hunting field, and to make accessible to sportsmen a new hunting area which can be reached within a reasonable time. The idea occurred to Mr. Gray last fall, during a hunting trip which he made into the northern section of this area and out of which he reported some fine specimens of moose, mountain goat, mountain sheep, and grizzly bear.

In his letter to Mr. Hargrave, Mr. Gray said:

"We found a new country—that is, new to the sportsman, and I believe new also to the trapper and Indian. So far I can find no signs that suggest an attempt to show the streams of the area as anything more than dotted lines, and most of these are inaccurate."

"We reached our railroad in 45 days from the centre of this new area, although it took 15 days to get in this trip, and to a lot of men who now believe they must spend 20 days on the trail getting to and from their hunting camp and collecting specimens."

"My idea is to cut a trail into this country next August; take with me a surveyor and assistants; make a map of the country, and take moving pictures of the game, which is more plentiful than any place which I have previously visited in the Canadian Rockies."

A flood of tears indicates trouble waters.

A Chic Daytime Froek

Exceedingly smart is this attractive frock having the modish lobed effect. A V-neck finished with a tie collar, and long dart-tipped or loose sleeves. The skirt has an inverted pleat in front and the back is in one piece. No. 1036 is in sizes 34, 36, 38, 40 and 42 inches bust. See 36 prices 31, yards 39-inch, or 21, yards 36-inch contrasting material. 25 cents for each View. Price 25 cents the frock.

The designs illustrated in our new Fashion Book are in styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

CANADA AS GOLD PRODUCER

The last ten years has brought a radical shift in the sources of North American gold output.

Ten years ago the United States accounted for nearly three-quarters of the continent's total gold production. But since 1917 the gold output of the States has been almost cut in two, falling from 4,000,000 ounces to little more than 2,000,000 ounces.

Joe Bourgeois has taken his threshing machine north of the Red Deer river to Hinton, where he intends threshing this fall.

CARD OF THANKS

We wish to express our sincere thanks to all those who took part in the program at the annual conference of the Bow Valley Constituency Women's Institute, and also to the members of the local branch who served lunch.

Mrs. H. S. Johnson, convener.
Mrs. M. E. Orsland, sec. treas.

POLICE COURT NEWS

On August 18th Joe Ferrilli, of Calgary, was fined \$10 and costs for being in an intoxicated condition in a public place. Fines and costs were paid.

Ray Cunningham, of Wayne, Alta., while in an intoxicated condition in a restaurant in Hussar used profane language and fought with others. He and another patron of the restaurant, As ladies were present at the time Cunningham was asked to control his language, but refused. He got a black eye, required to pay quite a damage amount, and was fined in the police court in Bassano on the 24th of August, \$20 and costs or one month in Leithbridge Jail. Fines and costs were paid. Sergeant J. N. Cawsey prosecuted.

Alex Tanner, also of Wayne, was fined \$20 and costs for being intoxicated in a public place in Hussar. Tanner took the alternative, which was one month in Leithbridge Jail, with hard labor. The case was tried by Magistrate A. G. Bond at the police court, Bassano, Aug. 21.

Two farmers have been charged with infractions of the "Noxious Weeds" act, and will appear to answer the charges in police court at Bassano on Friday the 24th of August. Weed Supervisor Erving and Sergeant N. Cawsey are prosecuting. Magistrate A. G. Bond will conduct a preliminary hearing at 10 o'clock next Monday. The case is a perjury charge arising out of a government liquor control case dismissed recently in that town. There will be eight or ten witnesses on each side.

Bunkit oranges, 3 dozen for \$1.00, at Torgan's.

OFFERS WILL BE RECEIVED by the undersigned for the old Masonic Hall, measures 29.6 x 48.5.
A. T. Connolly, Bassano.
